EXPERIENCE

Raiz Digital Services

Feb 2023 – Till Date

- Lead Mobile Developer at a fast-growing fintech company providing cross-border financial services for the African diaspora.
- Built and maintained the flagship mobile application using React Native, TypeScript, and Expo for both iOS and Android.
- Implemented end-to-end features including wallets, transfers, cards, and loyalty systems.

Sterling Bank

Aug 2023 – Till Date

- Built web and mobile applications using React, React Native, and TypeScript with strong focus on UI/UX design.
- Took charge of building and hosting mobile applications to provide comprehensive and efficient solutions.
- Actively participated in daily scrum meetings and worked within agile development environments.

Float Transfer

May 2025 – July 2025

- Collaborated with backend developers, security experts, and product managers to deliver secure, compliant, and high-performance financial solutions.
- Contributed to building low-latency, globally scalable transaction systems.

Emergency Response Africa

April 2023 – Till Date

- Mobile Frontend Engineer for the Era-Responder application.
- Engineered seamless user interfaces for the Responder mobile app and Dispatcher web platform.
- Implemented real-time data synchronization and enhanced user experience using React, React Native, and related technologies.

PROJECTS

Raiz

react, react native, typescript, expo

- A full-featured cross-platform fintech mobile application serving the African diaspora.
- Supports multi-currency wallets (NGN, USD, crypto), P2P and international transfers, virtual/physical cards, real-time FX, expense analytics, bill splitting, and rewards programs.

EDUCATION

MSc. Computer Science | Specialization: Software Engineering

Federal University of Petroleum Resources Effurun Delta State

November 2023 – May 2025

Software Engineering

Decagon Institute

November 2022 – April 2023

The Fundamentals for Digital Marketing

Google Digital Skills for Africa

January 2023 – May 2023

BSc. Computer Science

Federal University of Petroleum Resources Effurun Delta State

November 2016 – September 2021

Microsoft Certificate of Achievement

Complete Computers and Technologies Warri

July 2016 – October 2016

SKILLS

React | React Native | React Redux | EAS | Expo | Nextjs | JavaScript | TypeScript | Git & GitHub | Docker | Tailwind | Bootstrap | Nodejs | Express | MongoDB | Microsoft Office | SCRUM | Agile | HTML | CSS | Ejs

CERTIFICATION

- Grokking the Modern System Design Interview – Educative
- Mastering Data Structures and Sorting Algorithms in JavaScript - Educative
- Simplifying State Management in React Native - Educative
- Software Engineering and Leadership Training Programme - Decagon
- The Fundamentals of Digital Marketing - Google
- Full Stack Web Development - Udemy

ODS

react, typescript

- A web-based e-commerce and digital wallet platform supporting bank-linked wallets, automated loyalty points, gift card creation and redemption.
- Includes an admin dashboard for managing users, transactions, loyalty configurations, and analytics.

Era-Responder / Dispatcher

react, react native, typescript, expo

- Responder mobile app equips ambulance crews with real-time incident data and navigation to minimize response times.
- Dispatcher web platform provides a mission-control dashboard for fleet monitoring, call prioritization, and response coordination.

Float Transfer

react, react native, typescript, expo

- A robust mobile application engineered for fast global transactions with secure, compliant, and low-latency infrastructure.

Readiness AI

react, typescript, next.js, api integration

- Built and maintained user-facing dashboards for an AI-driven platform focused on operational and data readiness.
- Integrated frontend applications with backend APIs to surface real-time insights and analytics.
- Improved application performance, state management, and overall user experience across web interfaces.

Bond Loyalty

react, react native, typescript, expo

- A loyalty program management platform enabling businesses to create and manage customer rewards systems.
- Integrated APIs for loyalty points, user management, and communication services.
